ABOUT MX ACADEMY - TECHNICAL

MX Academy [Technical] is a pioneering multi-dimensional technology company based in Nigeria, dedicated to bridging the technical gap in Africa.

We are passionate about leveraging creative technological solutions to solve complex security problems, providing high-tech security training for Africans, and deploying state-of-the-art digital and technical security services to organizations and government agencies across the continent.

WHAT DISTINGUISHES US FROM THE REST?

1. Bringing you tomorrow's technology today

2. Step by Step Guided Practical Training Approach

We provide step by step guided hands-on practical training for easier assimilation.

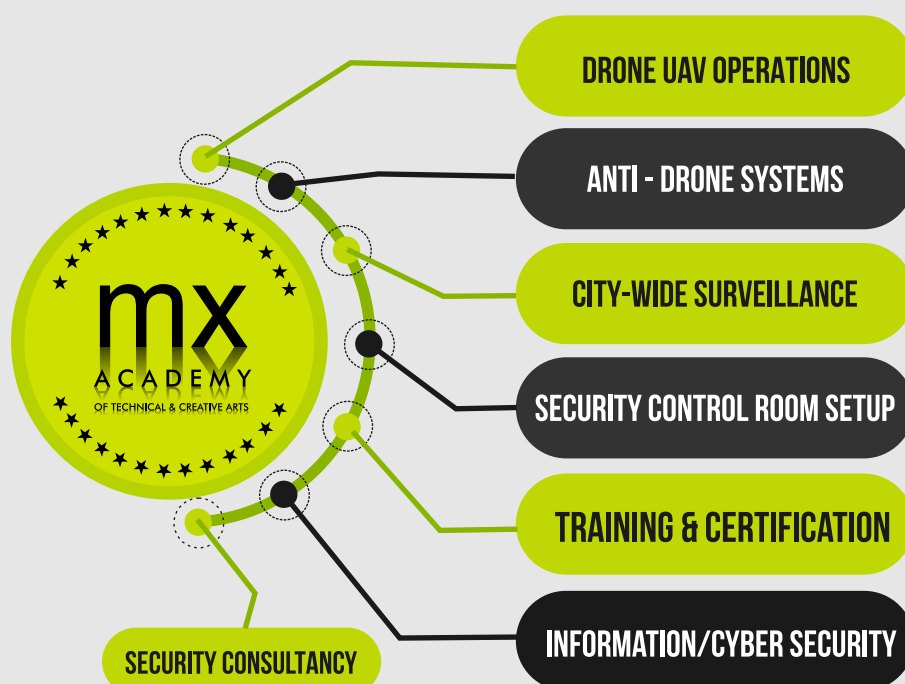

3. Our Standard is International

We deliver cutting edge solutions that cannot be lower in quality when compared with similar products and services available in other parts of the world.

MX ACADEMY - TECHNICAL

ALL ROUND SECURITY SOLUTIONS

WHAT WE DO | OUR SERVICES @ MX ACADEMY

01

DRONE/UAV AERIAL SURVEILLANCE OPERATIONS TRAINING

We provide Drones/UAV services as well as professional training and certification on drone operations be it for photography, security surveillance, agriculture, search and rescue or crowd control, we have the equipment and personnel to train aspiring individuals or groups.

02

ANTI-DRONE SYSTEMS DEPLOYMENT & ANTI-DRONE TRAINING

Our state-of-the-art drone jamming technology offers comprehensive protection over a wide range, from several hundred meters to several kilometers. We ensure any unauthorized drone entering this range is promptly disabled and disconnected from its operator.

➡ Additionally, we provide specialized training for personnel to effectively manage and operate anti-drone systems, enhancing your organization's defensive capabilities.

03

SECURITY APPS & CUSTOM APP DEVELOPMENT

Development/deployment of emergency reporting app. Our robust and user-friendly web applications are tailored to meet diverse needs, ensuring seamless digital experiences for our clients.

04

CYBER SECURITY AWARENESS TRAINING FOR ORGANIZATIONS

Protect your organisation from emerging cyber threats with our up to date comprehensive cyber security awareness training. We equip your employees with the technical knowledge to recognize common and emerging cybercrime and information security risks, including man in the middle attacks, cat-fishing, online fraud, phishing, social engineering, and other online risks.

05

24-7 INTELLIGENT SECURITY COMMAND & CONTROL ROOM & CITY-WIDE SURVEILLANCE DESIGN & SETUP

Setting up of Advanced Security Response Systems and command & control room for security operatives. This systems includes a 24-7 city-wide camera surveillance system, drone aerial surveillance and a mobile app for reporting emergencies to the control room.

06

DEPLOYMENT OF PRIVATE & CONFIDENTIAL COMMUNICATION SYSTEM FOR ORGANIZATIONS

We help organizations to keep the prying eyes of hackers and the general public away from their communications by deploying an app with a secure environment for internal communications, thereby protecting sensitive data and discussions from external threats.
